

AGENDA  
STATE OIL AND GAS BOARD OF ALABAMA  
BOARD MEETING  
FEBRUARY 7 & 9, 2012

The State Oil and Gas Board of Alabama will hold its regular hearing at 10:00 a.m. on Tuesday, February 7, 2012, and Thursday, February 9, 2012 in the Board Room of the State Oil and Gas Board, Walter B. Jones Hall, University of Alabama Campus, 420 Hackberry Lane, Tuscaloosa, Alabama, to consider among other items the following petition:

1. DOCKET NO. 9-27-11-04

Petition by ANKOR E&P HOLDINGS CORPORATION, a foreign corporation authorized to do and doing business in the State of Alabama, requesting the State Oil and Gas Board of Alabama to enter an Order permitting Petitioner, as the current operator of the Craft-Blackstone 17-5 No. 1 Well, Permit No. 16176, and the Craft-Huxford 18-2 No. 1 Well, Permit No. 16323-B, both located in the East Wallace Field in Escambia County, Alabama, to continue flaring or venting the gas produced from such Wells pending completion of a proposed gas processing facility.

Petitioner avers that the Craft-Blackstone 17-5 No. 1 Well, Permit No. 16176, and the Craft-Huxford 18-2 No. 1 Well, Permit No. 16323-B, both located in the East Wallace Field in Escambia County, Alabama, produce oil and gas. Petitioner is currently marketing the daily allowable of oil produced from the Wells. However, because the gas produced from the Wells contains hydrogen sulfide, Petitioner cannot market the gas until it has first been processed to remove the hydrogen sulfide. For this reason, Petitioner proposes to have a facility built to process the gas produced from the Wells.

Because Petitioner is currently unable to market the gas produced from the Wells, the Board entered Order No. 2011-17 on February 18, 2011, in Docket No. 02-08-11-12, permitting Petitioner to flare or vent the gas produced from the Wells located in the East Wallace Field pending completion of the proposed gas processing facility by Petitioner, but required Petitioner to report to the Board on its progress in constructing the gas processing facility within six months from the date of the Order. Accordingly, Petitioner will provide the Board at the hearing a status report on its progress in constructing the gas processing facility and will request that the Board permit Petitioner to continue flaring or venting the gas produced from the Wells pending completion of the gas processing facility.

The Petition is filed pursuant to Section 9-17-1 *et seq.*, Code of Alabama 1975.
