

PEN-92-7  
-6.10M water depth

LATITUDE: 30:16.18  
LONGITUDE: 87:31.91

LOCATION: Shoreface east of Perdido Pass, Florida

**Unit 1 0-185 cm (1.85m)**

Tan massive, medium quartz sand sub-rounded to sub-angular with small shell fragments throughout.  
Grain size fairly consistent (0.27 mm) with only a slight coarsening towards the bottom (0.32 mm).

Appears as though slight increase in shell content at base and upper 25 cm.  
Bioturbation is evident in the upper 70 cm. Dark brown circular mud (less than 0.5 cm)
